PROJECTS

Combat Designer - OFF AIR

Duration: 4 Months

Team Size: 5

- Designed and Implemented Limb Based Damage System to take into account damage modifiers like headshots.
- Utilize Animation Notifies and other tools in Engine to setup animations based attacks for the Player and Enemies.
- Designed and Implemented all Enemy AI Interactions and Attacks
- Designed and Implemented all Player Character movement and animations
- Handled Performance Optimization tasks for certain systems
- Utilized Editor Utility Widgets to make tools for other designers

Combat Designer - Project Potion

Duration: 4 Months

Team Size: 7

- Designed and Scripted all player movements to work in 2.5D.
- Scripted Potions that were available to the player and scripted a more advanced projectile system to be used universally in player or enemy use cases.
- Utilized Paper ZD Animation Tool Set for all sprite animations.
- Scripted Enemy Imp attack patterns.
- Designed and Scripted Final Boss Fight utilizing Behavior Trees and Statemachines.

Technical Designer - Devils in the Details

Duration: 4 Months

Team Size: 5

- Handled Animations and Blendspace setup to allow for smooth player interactions while traversing levels.
- Scripted a custom damage system to handle multiple damage variants from precision attacks to explosives.
- Designed and Scripted all Enemies to react accordingly when presented in combat encounters using Behavior Trees.
